The Engagement Ring

"If we are going to be engaged," said Elaine to Tom, "do I get an engagement ring?"

"What kind of a ring do you want?" he asked her. "One on the finger or one when I call you on the phone?"

There are many tales told about engagement rings. There was the time that Frank and Natalie had one real big fight.

"I wouldn't marry you if you were the last man left on this earth," Natalie said with fury in her voice.

"If I were the last man on this earth, look at all the choices I would have," he snapped back at her. "You probably would get killed in the rush."

She broke the engagement and sent him back the ring in a small parcel by registered mail. On the outside of this package in large letters, she wrote: "Glass. Handle with care. Glass."

Matilda has moved to this little town and was there for only four months when she became engaged to Tom. He did give her a beautiful engagement ring.

"I assume you showed it off to the girls," smiled her mother. "What was their reaction?"

With tears in her eyes, Matilda informed her mother of what had happened.

"I showed it off to Jane, Frances, and Mary. They all recognized it at once. They had it also when they were engaged to Tom."

"Then I assume you will return the ring at once to Tom," said mother.

"Oh, no," grinned Matilda. "I shall wrap Tom up in a big package and return him to the girls, but I'm going to keep the ring."

The Caterpillars

There are many stories told about psychiatrists and their patients. This time, we will leave the specialists alone and take a peep into their offices. There were two men seated almost shoulder to shoulder in this particular exclusive expensive office.

The first man spoke to his neighbor in a sort of patronizing tone of voice.

"What is your ailment? Is it an expensive one? First time here?"

The second shrugged his shoulders. Might as well answer the questions put to him by this other chap.

"I will answer in reverse order," he said. "This is my first time here. I can't say whether it is or is not expensive until I have talked to the expert. But I do think I have a most unusual situation. If anyone can cure it, he can."

"Well, what is it?" demanded the other man impatiently.

"Right on my shoulder are six very small caterpillars. They are invisible. Where ever I go, they insist that they too must go with me. They're getting to be a nuisance."

"You don't have to listen to them at all," said the other man.

"Just take your hand and brush them off your shoulder. It's as simple as that."

"Say, that is something I never thought of," he beamed back.

"Now watch me go into action. One, two, three they are all off my shoulder. My problem is solved."

"But you didn't have to be so impolite as to brush them off your shoulder onto my shoulder," sighed the other man.

Modern Economics

Professor John Madison is one of our leading economists in this country. He can tell you what is wrong with our system and what should be done to correct our errors. He is also a humorist. Sometimes he gets his economic theory and his humor mixed up. So you can see what can happen when this takes place. On this particular evening, he was speeding to a group of distinguished economists from all over the world.

"Our credit system needs a complete overhauling," he began. "It is not built on sound principles. Let me illustrate this to you in a simple manner. You will agree with me that rich and wealthy people have sufficient money to spend on the things they need. But when they go shopping, they do not pay cash even if they have the money with them. They get credit. They really don't need it. Now look at the poor people in our society. They have no money. Yet when they go shopping, they must pay cash which they do not have.

So I suggest we reverse this situation. The rich and wealthy people who have cash and do not need credit should only buy things for cash. No credit to them. The poor people who have no cash, should all be permitted to purchase things on credit. Then and only then will we be on our way to a sound economy."

"There is a catch to what you say," objected Dr. Theodore Kootz. "If a store owner gives credit to the poor, he can end up by being poor himself - without cash."

"Then he would have no trouble at all," smiled our Professor. "For by then being poor, he can buy everything for his store on credit."

I'll give you the secret power of CHINESE KUNG-FU

The Deadly Concealed Fighting Art of Instantaneous Death That Requires No Strength or CLOSE BODY CONTACT.

- **Self-defense without torturous training or rigorous exercise.**
- **Instant self-defense for the weak, the defenseless, the fearful and the untrained.**
- **Makes your body a live fighting machine! Hands, feet, elbows even fingers become deadly weapons of defense.**
- **Faster, deadlier and easier than Judo, Savate or Karate.**

Revealed at last! The most secret, the most respected, the most effective of all the Oriental fighting arts—KUNG FU. ***So simple that if you can read then you can easily master the theory of this "flick-of-the-wrist" technique.*** **KUNG FU works on a secret principle yet its deadly force is easy to learn and easier still to apply. KUNG FU can take any one * without training and make him a fighting machine in seconds.**

THE SECRET OF KUNG FU REVEALED AT LAST

KUNG FU is a fantastic method of self-defense that was buried in the mysteries of the past. Once a part of a mystic Oriental rite, its deadly fighting secrets were only taught by Shaolin Priests to those considered worthy only after years of preparation and testing. KUNG FU was hidden from the public! Yet in spite of serious efforts to keep it from the world word of its amazing power spread. Masters of other fighting arts soon earned to fear and respect its techniques. *They learned that KUNG FU harnesses certain dormant forces within you enabling you to disable and destroy with just a lightning flick-of-the wrist, and that KUNG FU requires no strength or extraordinary skills. In fact KUNG FU's brilliant defense never requires strength, size or undo exertion*

HOW KUNG FU WORKS

KUNG FU is based on a simple yet lethally effective principle. *It is not necessary to physically match strength with your opponent in order to overcome his attack.* You harness the enormous natural power of your own movements. KUNG FU shows you how to take advantage of these fundamental laws of natural movement. Your rhythm is added to the very movement against you... so that all forces are added together and unleashed against your opponent. This is KUNG FU a force so simple yet so devastating that its techniques have stunned the world.

KUNG FU IS BETTER THAN OTHER FORMS OF SELF DEFENSE

KUNG FU is better than all other forms of self defense! Its secret lies in its simplicity and in its ability to overcome an attacker WITHOUT INTRICATE BODY CONTACT. Now, if you can read or look at pictures then you should be able to master the theory of this "flick-of-the-wrist" technique. YOU CAN WIN. EVEN IF YOUR OPPONENT IS BIGGER AND STRONGER THAN YOU. You can win if your attacker surprises you. And more—KUNG FU **means** deadly often crippling self defense where **every part of your body is a fearful weapon.** Your feet, your hands, your elbows, your fingers become lethal weapons WITHOUT REQUIRING SUPER MUSCLE POWER OR BRUTE FORCE. And you can do all this without years of training special exercises, and especially hundreds of dollars in cost

[illegible] WILL MEAN TO YOU

With so many crimes of violence about us you could be in danger anytime of being hurt or worse humiliated! BUT NOW YOU CAN DO SOMETHING ABOUT IT. **You can protect yourself, your family and your property with deadly efficiency in mere seconds.** Yes, and you can do it without years of training, hundreds of dollars in cost, and without long painful practice. Regardless of size, strength or build you can beat the bullies and better the odds. Thanks to KUNG FU you need never be afraid again. You too can learn to overcome the fear of being shamed. You too can be the one that gives the beating! You too can control threatening dangerous situations.

WHY KUNG FU MAKES ALL THIS POSSIBLE

Why? **Because KUNG FU is as deadly as it is simple.** And it works for anyone.* Other forms of self defense like Judo or Karate require something special such as strength, speed, etc. to say nothing of endless practice. A judo Black Belt Master, for example must practice technique after technique and take years to master it all. NOT SO WITH KUNG FU! It's **based on an entirely different concept.** Technique and form aren't very important. DEFENSE IS KUNG FU is designed to help you defend yourself in most situations* with *an absolute minimum in effort and a maximum in protection*
